SQL | MYSQL

Courses

Full Stack Java Developer
Besant Technologies, BTM Layout, Bangalore - India
- Earned a very good knowledge of Java, its environment and coding skills using Java built-in classes and interfaces.
- Got a clear idea of Object Oriented Programming (OOP), enabling the creation of robust and efficient programs.
- Skill in writing Java reusable Libraries.

Front-end Reactjs Developer
Besant Technologies
- Learned skills related to front-end development.
- Ensured that React applications were responsive and optimized, delivering the best possible user experience.

Internship

Leanworx Technologies Pvt. Ltd., Bangalore
WEB DEVELOPER MAY 2022 - OCT 2022
The practical experience gained through this internship was very helpful in upskilling my coding knowledge. Collaborated with an experienced team on an ongoing project. Utilized HTML, CSS, and jQuery for front-end development. Manipulated database data using SQL queries. Meanwhile, I also implemented some backend functions using the C# programming language.

Work Experience

HDFC Bank - 2020
Sales - Financier
- Handled 3 various HDFC branches, to accomplish sales targets.
- Demonstrated expertise in sales financing and acquired comprehensive knowledge of various other products while working at HDFC Bank for 6 months.

IndusInd Bank Ltd. - 2014-2020
Sales - Financier
- Achieved sales targets and maintained customer relationships while providing loans for two-wheelers as a financier at IndusInd Bank for 5 years.

Projects

Car - Racing Game
Developed a racing game among multiple cars that is build using html and CSS for user interface.
Leveraged JavaScript to calculate the accurate speed and scores while and after the gameplay.
Features:
Implemented an audio sound effect as engine sound while car races and a brake sound upon collisions.
- Developed the responsive landing page.
- An individual project with Google and YouTube references

Personal Portfolio Website
Designed and developed a personal portfolio website to showcase my skills and projects.
Utilized technologies such as HTML, CSS and JavaScript to create an interactive and visually appealing platform.
Highlighted my work including Introduction about myself, projects, and contact information.
Features:
Responsive landing page for mobile view.
Animation using keyframes.
- An individual project built within a month along with ongoing JavaScript course.
